### ***Response to Arguments***

Applicant's arguments filed 04/11/02 have been fully considered but they are not persuasive. The Applicants do not define the invention to such a degree that the prior art fails to read on it. While "a direction ... parallel to the main surface of the substrate" is claimed, this direction is not defined in such a way that the prior art fails to read on it. The main surface of the prior art references extends in two conventionally defined directions, e.g. x and y. For the prior art to read on the claims then, it merely requires laminations to extend in one or both of these directions. Consequently, the rejection as defined in paper 6 yet stands. See that paper for the art rejections.

### ***Conclusion***

**THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the mailing date of this final action.

Direct inquiry concerning this action to Examiner Dougherty at (703) 308-1628.
